

Saxtead Green Post Mill Saxtead Green

Notice: Saxtead Green is closed until Spring 2020 for conservation work

An English Heritage site, Saxtead Green Post Mill is a corn mill whose whole body revolves on its base and is one of many built in Suffolk from the last 13th Century.

Though milling ceased in 1947 it is still in working order. Utilising their audio tour, you can climb the stairs exploring the mill. The floors are full of fascinating machinery.

It's not too far from Framlingham Castle either, also a CU Learning Destination.

Learning Credits

- 2 hours of CU Learning for a general visit which includes the audio tour
